THE CHINA MAIL.

ARRIVAL OF THE EMPRESS OF INDIA.

The Empress of India, the first of the new line of large fast steamers which the Canadian Pacific Company are putting on the Vancouver-Hongkong line, arrived in Hongkong to-day, after a passage of about 4 days 20 hours, which, although by no means the fastest on record, the P. & O. are.

Unusually having covered the distance in a few more hours than four days, it is a very short run at this season of the year. There are 141 passengers on board the Empress of India, who have taken advantage of the vessel's splendid accommodation and the special facilities granted by the Canadian Pacific Company to make a tour round the world. As the steamer will be here for more than a fortnight, there ought to be ample time for arranging cricket matches and for the visitors becoming fully acquainted with Hongkong. The only unfortunate thing is that they have landed at a season of the year when the weather in Hongkong is rarely fine.

We have already given a description of the Empress of India and her crew, and that she is 485 feet long, overall, 107 feet between perpendiculars, 36.5 moulded depth, moulded, 26ft; tonnage, 5,700 gross tons. The engines indicate about 10,000 horse power. She has been built to Admiralty requirements as a cruiser, and can be armed and made ready for duty in a few hours, her guns being stored in readiness at Vancouver and Hongkong. Her armament will consist of the largest type of 4-in. guns. She is a beautiful ship, painted white, with green-coloured funnels, and presents quite a man-of-war appearance. She has accommodation for 170 saloon passengers, and as will be seen from the list, she practically filled up. During her stay here the vessel will be docked, to be finally touched up before beginning her regular voyage. She is scheduled to leave Hongkong on the 7th April.

The European passengers on board the Empress of India can do more than this if required.

For Empress of India, from Liverpool, &c., Lady Kathleen Alexander, Mr Russell A. Alger, (Jr.), Mr. J. A. Atwill, Mr and Mrs R. Aspin, Captain J. C. Bayly, Mr Bruce Barney, Mr Thomas Barnham, Mr T. H. Bethell, Mr and Mrs Wm. Bissell-Snell, Mr Alfred Blain, Dr Thomson Bonar, Mr G. B. Black, Mr H. B. Bonner, Mr L. B. Bowes, Mr. C. B. Brydges, Mr. G. M. Buckley, Mr Arthur Brudenell, Mr. Harry Butler, Miss Carrill, Mr. W. C. Carruthers, Major-General Cherry, Mr. Alex. G. Clark, Sir Alfred Mrs. Cornell, Mr. E. C. Cornwall, Rev. A. Crosby, Mr. G. W. MILN DRAMATIC COMPANY AT THE THEATRE ROYAL.

Under ordinary circumstances a manager with any knowledge of the taste of Hongkong playgoers would probably not select a round of Shakespearian plays as the material out of which to make a prosperous dramatic season here. He would be aware of the fact that the works of the great Poet would not be able to hold the stage against a non-literary burlesque, and that the Prince of Denmark or the Moor of Venice would not be able to compete successfully with a man singing so-called comic songs, or a woman acting in lights. But the circumstances under which Mr. G. C. Miln's dramatic company commenced a season of the legitimate drama at the Theatre Royal on Saturday evening were rather out of the ordinary.

Mr. Miln himself is an actor of distinction and he is supported by a company of exceptionally strong men. His reputation as a Shakespearian actor led to high expectations, which were fulfilled as far as his appearance on Saturday evening in the part of Hamlet, and it is satisfactory to be able to say that those expectations were not disappointed. If he did not come up to everybody's ideal Hamlet, he at least gave a reading of the part which was marked alike by sound judgment and sympathetic appreciation. There is no character in the whole range of dramatic art that has been so diversely interpreted as Hamlet. The actor who can fully realize the ideal and reconcile all the seeming incompatibilities of the part has yet to come. Mr. Miln does not pretend with what can be called a "new reading," but he gives an interpretation which ought to satisfy any reasonable playgoer, and shows himself to be possessed of histrionic talents of the highest order. Excellent acting in Hamlet, we shall be surprised if it does not appear to even greater advantage in some of the parts which are included in his repertoire.

A brief report written by Mr. Orange is appended, showing the Property, Plant, &c., belonging to the Company. The Directors regret that the cost of getting the wire into working order and also the cost of machinery have so greatly exceeded the estimated amounts. The original estimate for machinery included a second-hand Boiler, Baffery and fittings, which were provided for. It was not found possible to obtain this Baffery and it was decided to purchase new machinery. The Company's expert Sydney put the whole matter of machinery and the estimation of that goliath-man have been greatly exceeded and a great deal of the work supposed to have been executed under his supervision has proved defective.

The Company have been unfortunate in the delay and additional expenses caused by the heavy rains and floods at, and in the vicinity of, the mine during the past year. The Directors beg to submit their First Annual Report with Balance Sheet duly audited to 30th September, 1890, for your approval.

THE BALMORAL GOLD MINING COMPANY, LIMITED.

The following is the Report for presentation to the Shareholders at the First Annual General Meeting to be held at the Hongkong Hotel, on Thursday, the 24th day of March, 1891, at 2.30 p.m.—

The Directors beg to submit their First Annual Report with Balance Sheet duly audited to 30th September, 1890, for your approval.

A brief report written by Mr. Orange is appended, showing the Property, Plant, &c., belonging to the Company.

The Directors regret that the cost of getting the wire into working order and also the cost of machinery have so greatly exceeded the estimated amounts. The original estimate for machinery included a second-hand Boiler, Baffery and fittings, which were provided for.

The Company's expert Sydney put the whole matter of machinery and the estimation of that goliath-man have been greatly exceeded and a great deal of the work supposed to have been executed under his supervision has proved defective.

The Company have been unfortunate in the delay and additional expenses caused by the heavy rains and floods at, and in the vicinity of, the mine during the past year.

Mr. Miln has great natural gifts in his favour, the chief of which is a rich and powerful voice of exceptional range. His enunciation is clear as a bell, and every syllable he utters is distinctly heard in all parts of the house. This is a piece of detective acoustics by the Theatre Royal, implies a facility of utterance such as but to the noble mind of Sir Henry Irving, I am sure, in this art which is as delicate as it is rare. Miss Louise Jordan is a belle, though showing powers considerably above the average as an actress, did not attain quite so much success in the part as the high encomiums passed upon her might lead one to expect. One disadvantage which she was under from the first was that she was not well-headed. This of course is a fault which must be attributed to the actress, and is one which familiarity with the place may enable her to overcome. Indeed, in her concluding scene she showed that she had already overcame it to some extent. A portion of the dialogue, though showing powers considerably above the average as an actress, did not attain quite so much success in the part as the high encomiums passed upon her might lead one to expect. One disadvantage which she was under from the first was that she was not well-headed. This of course is a fault which must be attributed to the actress, and is one which familiarity with the place may enable her to overcome. Indeed, in her concluding scene she showed that she had already overcame it to some extent.
